Introduction

Plasma Processing and Technology – Plasma Tech 2021

The event offers a great opportunity for scientists, researchers, and experts active in the field of surfaces and coatings science and technologies (Polymer, material and paint chemists, surface and interface scientists, formulators, designers and policy makers) from both academia and industry to present their newest research discoveries, share insights and exchange the latest ideas.

The conference provides an excellent opportunity for scientists from Europe and from all over the world to meet and discuss the latest

advances in surfaces and coatings physics and chemistry, surface engineering/ modification, coatings deposition and functionalisation processes as well as the investigated properties and performances in related innovation fields such as heterogeneous catalysis, two-dimensional materials and graphene, bio-interfaces, nanoelectronics, bio-nanoscience, functional/energy materials, etc.

The three days event will be held at the same dates and venue as the **SCT 2021** which access open to all the events participants.

Conference Topics

The **Plasma Tech 2021** International conference topics include:

- Atomic and molecular processes in plasmas
- Collision cross sections
- Fundamentals of low temperature plasmas
- Plasma-surface interactions
- Catalytic reactions with plasmas
- Plasma sources design and characterization
- Plasma diagnostics
- Modelling and numerical simulations of plasmas and surfaces
- Atmospheric/high-pressure plasmas
- Plasmas in (contact with) liquids / plasma-liquid interaction
- Plasma processing of materials, including etching and deposition
- Plasma -deposited protective and tribological coatings
- Plasma -deposited coatings for optical, electrical and other functionalities
- Plasma application for nanotechnologies
- Plasma application for biology, medicine, and agriculture
- Plasma application for environmental issues and resource recovery

In addition to the above **conference main topics/ sessions**, different **focused symposia** will run in parallel.

Sponsorship Opportunities

Why become an exhibitor

- Exhibiting provides a good opportunity to showcase your products and services and meet with key international Nanoscience and Nanotechnology players. This opens new business opportunities for your organization.
- Establish and strengthen your company's standing within the scientific community and maximize your exposure in the nanotechnology area.

Why become an exhibitor

The Exhibition packages include:

- Electricity Socket (220V)

- Logo of your company in the conference abstract book
- Logo, your company's short description and web link at the conference web site

Exhibition Standard Package

Included with the Exhibition Standard Package:
